

Update Oct 4, 2025

I went to the Boca PD they deflect say it's over their head and cannot do anything. They sent me to the FBI office in Miramar waste of time since you need an appointment.

(Note) If the FBI checks the security footage they will see a black SUV parked in a spot in front of the security check point that left right behind my Uber.

Here is something interesting

To the people funding this only thing I want is these people on your payroll to back off and you to move on. Since they have not done this please if someone knows anyone in an agency that has the ability to look into this at this point they can look into it just off of what I've posted.
